MAY 13, 1905

J. Brown,  
College Library

PUBLISHED WEEKLY BY  
THE STUDENTS OF UNION UNIVERSITY

# Union University.

ANDREW V. V. RAYMOND, D. D., LL. D., PRESIDENT.

UNION COLLEGE,  
SCHENECTADY, N. Y.

1. Course Leading to the Degree of A. B.
2. Course Leading to the Degree of B. S.
3. Course Leading to the Degree of Ph. B.
4. General Course Leading to the Degree of B. E.
5. Sanitary Course Leading to the Degree of B. E.
6. Electrical Course Leading to the Degree of B. E.

This differs from course 4 in substituting special work in Electricity and its applications, in place of some of the General Engineering studies. This course is offered in co-operation with the Edison General Electric Company, under the immediate supervision of Prof. C. P. Steinmetz.

7. Graduate Course in Engineering Leading to the Degree of C. E.—A course of one year offered to graduates of courses 4, 5 or 6.

For catalogues or for special information, address  
BENJAMIN H. RIPTON, Dean of the College,  
Schenectady, N. Y.

## DEPARTMENT OF MEDICINE.

Albany Medical College.—Instruction by Lectures, Recitation, Clinics, Laboratory Work, and Practical Operations. Hospital and Laboratory advantages excellent.

Catalogues and circulars containing full information, sent on application to

WILLIS G. TUCKER, M. D., Registrar, Albany, N. Y.

## DEPARTMENT OF LAW.

Albany Law School.—This department of the university is located at Albany, near the State Capitol. It occupies a building wholly devoted to its use. The course leading to the degree of LL. B., is two years, each year is divided into two semesters.

Expenses.—Matriculation fee, \$10; tuition fee, \$100. For catalogues or other information, address

ALBANY LAW SCHOOL,  
JOHN J. HUGHES, Secretary Albany, N. Y.

## ALBANY COLLEGE OF PHARMACY.

Exercises held in Albany Medical College Building. For catalogue and information address,

THEODORE J. BRADLEY, Ph. G., Secretary,  
Albany, N. Y.

## LOUIS M. CLUTE

FINE GROCERIES

Fraternity House Supplying a Specialty

Corner Jackson Place and East Liberty.

## F. C. KRUEGER & CO.

The Up-to-date  
Grocery House

FULL AND COMPLETE  
LINE OF GROCERIES  
AND PROVISIONS.

## TRINITY WINS.

### Defeats Union in Annual Track Meet.

Trinity won easily from Union in the dual meet held at Hartford Saturday, May 6th. Our opponents led in the scoring from the start. Gateson, Bowne, Campbell, Pond and Olmstead did most of the scoring for Trinity; all these men showed the results of long training. Weather had favored them, their track having been in good condition since the 16th of March. In addition to this they have had "rubbers" take care of the men after their daily practice.

The track was in excellent shape and conditions favorable for a meet with the exception of a strong wind that blew up the stretch preventing better time in the hurdle and dashes. The final score was seventy-one to forty-six.

For Union, Waldron scored 12 points and Capt. Raymond 11, Parsons, '08 ran a fine half mile and Flowers, '08 won the two mile easily in 10.45, and establishing a record for Union.

The summaries follow:

100 yard dash—Gateson, (Trinity), first; Waldron, (Union), second; Von Dannenberg, (Union), third. Time, 10 2-5 seconds.

120 yard hurdles—Olmstead, (Trinity), first; Raymond, (Union), second; Pond, (Trinity), third. Time, 18 seconds.

1 mile run—Campbell, (Trinity), first; Morris, (Trinity), second; Colburn, (Union), third. Time, 5 minutes 1 1-5 seconds.

High jump—Bowne, (Trinity), first, 5 feet 6 inches; Olmstead, (Trinity) and Larson, (Union), tied for second.

16 pound hammer throw—Closson, (Union), first, distance 101 feet 3 inches; Madden, (Trinity), second, distance 97 feet 4 inches.

440 yard dash—Waldron, (Union), first; Goodale, (Trinity), second; Hafley, (Union), third. Time, 53 3-10 seconds.

16 pound shot put—Madden, (Trinity), first, distance 35 feet 4 inches; Landefeld, (Trinity), second; Larson, (Union), third.

220 yard hurdles—Pond, (Trinity), first; Raymond, (Union), second; Olmstead, (Trinity), third. Time, 27 4-5 seconds.

Broad jump—Pond, (Trinity), first, distance 19 feet 6 inches; Waldron, (Union), second, distance 19 feet 2 inches; Vincent, (Union), third.

880 yard run—Campbell, (Trinity), first; Parsons, (Union), second; Moody, (Trinity), third. Time, 2 minutes 9 seconds.

220 yard dash—Gateson, (Trinity), first; Von Dannenberg, (Union), second; Waldron, (Union), third. Time, 23 3-5 seconds.

Pole vault—Raymond, (Union), first, height 9 feet 6 inches; Bowne, (Trinity), second, Maplesden, (Trinity), third.

Two mile run—Flowers, (Union), first; Campbell, (Trinity), second; Morris, (Trinity), third. Time, 10 minutes 45 seconds.

## LECTURE ON RADIUM.

The weekly lecture in the Electrical Engineering course was delivered in the College Chapel Tuesday evening by Mr. W. S. Andrews of the General Electrical Works. The subject of the lecture was "Ethereal Undulations and Radio-Activity." The lecture was well attended and thoroughly enjoyed by all.

Mr. Andrews said in part: "Scientists have ever sought for some simple basis to which all the complex things and acts of nature might be reduced, and they now think that they have found that basis in the undulations of the ether. Everything of which man can conceive is accountable to waves in the ether.

"Taken in their order, beginning with waves of low velocity and great amplitude and approaching waves of infinite velocity and zero amplitude,

we have heat waves, light waves, ultra-violet or chemical rays, the so-called X-rays and finally radium rays and the rays of other radio-active materials.

"It is only the elements of very high atomic weight which exhibit this curious phenomenon of radio-activity. These give off heat, light and energy for a seemingly unlimited length of time, without any appreciable loss in weight. The theory most generally accepted regarding radio-activity, is that the substance having this property tends to disintegrate into a simpler substance. (This substance may be lead, for no radium ore has yet been found which does not contain some lead.) The process of disintegration is one of throwing off minute particles at velocities varying from 20,000 to 150,000 miles per second. These minute projectiles coming in contact with some fluorescent material produce the light seen.

"Radium, like many other important things, was discovered by accident. Beckerel laid some pieces of pitch blend (which is the most important ore of radium) on some photographic plates in a dark room. On developing the plates he was greatly surprised to find the pieces of pitch blend perfectly photographed on the plates.

"Many of the views now held concerning radium and radio activity are probably false, yet scientists hope that they are ever coming nearer the true explanation of the constituency of matter."

Mr. Andrews exhibited some samples of radium, and was, further, kind enough to present each of those present with a small radioscope, made by himself, which shows very plainly the constant activity of radium. The lecture was one of the most interesting of the course.

**Don't forget the Junior Hop next week. It's the last.**

### The New Catalogue.

The catalogue for the ensuing year appeared during the week and is fuller and more satisfac-

tory than any published heretofore. The statements for required studies are better arranged and all the work for the engineering department is classed under a separate head. Announcement is also made of the intention of the Faculty, acting upon the authority of the Board of Trustees, to hold regular recitations on Saturday mornings.

### DR. SEELYE FOR COMMENCEMENT Noted Educator to Speak.

Announcement has been made that Dr. Clark Seelye, President of Smith College, and a graduate of Union College of the class of 1857, is to deliver the Baccalaureate Sermon this year.

The services, which will be held June 11 in the First Reformed church, will be held in conjunction with the celebration of the 225th anniversary of the founding of that church, with which Dr. Seelye, as well as his family, has long been connected. All of the indoor graduation exercises will be held in the same church.

### Vesper Service.

Sunday's vesper service talk was by Dr. Ellery, who spoke on "A Triumph of Conscience," suggestions from Victor Hugo's 'Les Miserables.'

Dr. Ellery made the subject of his talk the life of Victor Hugo's immortal character, Jean Valjean, showing the element of conscience which was in him, from his conversion to good, supporting him in temptation, reclaiming him after failure, and at his death bed leaving the man who had been a brute and criminal of the lowest type, a noble and loving character.

Dr. Ellery said: "We learn life's lessons in many ways but it is only in years of maturity that we are willing to learn by the experience of others.

The great stories of the world teach what the Bible teaches. They teach from human experience, bringing us the great principles of life. The teacher who opens our minds to what is best in life will lead us ultimately to the Bible. 'Les

Miserables' deals with the dark and criminal sides of life but throughout Hugo teaches this lesson: Hold fast to conscience and obey it.' "

### Christian Association.

**VESPER SERVICE:** "Opportunities and Limitations"—By Dr. Williams.

**TUESDAY EVENING:** "The attitude of scientific men towards Christianity."—M. King, '05, leader.

The Association has received a number of circulars on Northfield and they may be obtained from the President.

To most of us the problem of a life work is most serious and during our college course is often before us. Many a young man feels that he would like to spend his life in Christian work though the ministry may not be possible. The Christian Association offers a vast field for such men and as a general secretary or higher officer some of the best Christian work in the world can, and is being done today. The vastness as well as generally recognized value of this work can be realized when it is known that the Mikado, though a pagan, has extended a welcome and given financial aid that Japan may receive the benefits of association influence. Here then, is a field with great possibilities and well worth our serious attention. To prepare men for it a summer training school is held. Further information can be had from the officers of our Association.

### Y. M. C. A. in Other Colleges.

The annual convention of the student Associations of South Dakota was held at Mitchell on March 10-13. Records of attendance were broken by the presence of eighty-three visiting delegates, and by a total of about 125. Nine professors were in attendance, taking an active and interested part in the proceedings. At the Sunday afternoon meeting, addressed by Mr. W. M. Parsons, of Minneapolis, ten men committed themselves to the Christian life. Under the leadership of C. D. Hurrey, Student Secretary of the International Committee, and other student leaders

of the West, the work of a typical Association was thoroughly covered. During the two days something over \$400 was pledged to the State work. At the University of North Dakota, Grand Forks, as a result of the Fargo conference in February, the Bible study enrollment has been increased from a little over thirty to seventy.

\* \* \* \*

The Day of Prayer for Students was celebrated in Rome, Italy, by a gathering of the students of the Methodist College, the International Institute, and others. Mr. Penfield, who was at the time in Rome, was one of the speakers and added to the profit of the day. A prayer meeting of university students, held at the Association building on Saturday evening, was largely attended.

\* \* \* \*

Student delegates to the number of 136 from the institutions of Virginia attended the State Convention at Petersburg. Much time was given to informal student conferences, and these were followed by several delegation conferences. On the day following the convention a well-attended conference for new presidents was held. In connection with the Convention, a special conference for professors and members of faculties was inaugurated. Seven institutions were represented, and so helpful did the conference prove that it will probably be repeated annually.

\* \* \* \*

Virginia Union University has a successful mission-study class of fifteen. This Association has also fitted up an attractive social room with games for rainy days.

\* \* \* \*

The effectiveness of the Bible Study work at the Virginia Polytechnic Institute has been much increased this year by a most successful normal class of fifteen leaders under the direction of Professor L. S. Randolph of the faculty.

\* \* \* \*

The Fifth International Convention of the Student Volunteer Movement will be held at Nashville, Tennessee, February 28 to March 4, 1906. Full information concerning the program and all the arrangements will be issued next Fall.

### Sigma Xi Elections.

The following elections have been made to the Sigma Xi Society:

From the Faculty—Prof. Edward Ellery, Prof. E. F. Creighton.

From the Graduate Course—T. K. Evans.

From the Senior Electrical Engineers—James H. Cunningham, Morland King.

From the Senior General Engineers—Eric T. King, Karl F. West.

From the Senior Latin Scientific Course—Frank I. Losee.

### College Briefs.

At the election held in chapel last Monday morning Hill '07 was elected over Reed '07 to the office of assistant football manager for the season of 1905.

\* \* \* \*

L. H. Peebles, chairman of the Junior Hop committee has announced the next Hop for Friday evening, May nineteenth, at the Boat House. As this will be the last Hop of the year extra efforts are being made for its success. Parsons' orchestra will furnish music. As the committee hopes for a large attendance, especially good refreshments are being provided.

\* \* \* \*

The members of the Sigma Phi Society are now living in their new home on the hill.

\* \* \* \*

The Senior-Junior baseball game scheduled last Tuesday was not played on account of the cold weather. The next game is down for Tuesday, between 1905 and 1907.

\* \* \* \*

Monday has been named by the Senior class as "Moving-up-Day." Caps and gowns will be donned on that day.

\* \* \* \*

The game scheduled for May 27 with Boston University has been cancelled by that institution. In all probability a game will be played here with R. P. I. if satisfactory arrangements can be made. The rest of the schedule remains as first published.

The Alpha Delta Phi fraternity entertained informally at the chapter house last Friday evening.

\* \* \* \*

At the meeting of the instruction committee of the Board of Trustees, held in New York last Friday night, a number of important questions were brought into such form as to be laid before the trustees in June.

\* \* \* \*

Among visitors on the hill Sunday were Weed '01, and Watson, Irish, Craig, Stiles and Greenman, all of 1904.

\* \* \* \*

Arnold G. Chapman '06 and Milton K. Huppuch '08, left Tuesday for Bethlehem, Pa., where they will attend the Psi Upsilon Convention now in session at Lehigh University.

\* \* \* \*

Barnes '06, has again returned to his college duties after a severe illness at his home in Clyde, N. Y.

\* \* \* \*

In a late number of the Green Bag, a law publication, Dean Fiero of the Law School, has an interesting article on "The Applicability of English Methods to Conditions in the United States."

Don't forget the Junior Hop next week. It's the last.

### Dramatists of Today.

Dr. Hale has compiled a number of essays from the Boston Dial on Rostand, Hauptmann, Sudermann, Pinero, Shaw, Phillips and Maeterlinck in a volume entitled "Dramatists of Today." The following criticism is an extract from the Brooklyn Daily Eagle of May 6, 1905:

Mr. Hale is a modest and sensible, as well as an acute and sound critic. Instead of tying himself to some incomprehensible "principles" of criticism, incomprehensibly pronounced by some impracticable persons named, maybe, Peter, Ruskin, France, Hazlitt, Jones, Brown and Robinson, he reassumes the old fundamental principle: "I

don't pretend to know anything about criticism, but I know what I like," and he dilutes this individual standard with the equally sensible assumption that there is in the drama something a little more than what we "like"—namely, the comparative didactic impression left upon our individualism by the presentment of some new form of experience. While a book or play may not amuse you, and is therefore rot, it may still influence you by suggesting new experiences which do not happen to have presented themselves to you in person. That is all a book or a play amount to; the description of an experience. No single person is in the way of experiencing everything, and the lack must be made up by borrowing experiences elsewhere. It is experiences that result in the formulation of principles. In this way every new experience thrust upon you, whether it amuses you or not, tends to have a formative effect on yourself and through you on society.

"Before one can lay down the law as to how one ought to feel about the drama," says Mr. Hale, "it is but reasonable to try and find out how one really does feel."

With this candid mind, Mr. Hale proceeds to analyze the plays of certain foreigners from his own point of view, without worrying himself what the Paris Figaro or the Masquee of Beloochistan happen to have said on the subject. And that is all we care to ask of any critic—what he thinks about it himself. We shall not, or ought not, to agree with him, because every one's point of view ought to be different from every one else's; but for that very reason, the narrowness of our individual points of view, we need, and we find amusement in getting, the opinions of people different to ourselves, provided always they are people whom we can respect, people whose heads are not swelled out of proper proportion, and people who are capable of having an opinion of their own. The majority of so-called well known critics do not belong to the latter category, being quoters and imbeciles.

Don't forget the Junior Hop next week.  
It's the last.

## ALUMNI.

Following is a list of the class of 1890, which celebrates its fifteenth anniversary in June:

### 1890.

Last Monday morning in chapel meeting the attention of the student body was called to an occurrence which was, of itself, most deplorable but which was rendered doubly so by the fact that never before has such a thing been known to happen here. It seems that the Hamilton team dressed in the gym for last Saturday's game. Part of the men turned their money and other valuables over to the manager but several thought that it would be perfectly safe to leave everything in their suit cases. When they returned to dress after the game they discovered that their suit cases had been rifled and nearly everything of any value taken. The money loses were made good to the men by our management and what the men lost in watches and jewelry will also be made good. But that cannot wipe out the memory of the affair. No possible suspicion can attach itself to any of the men in college, but that fact can in no wise alleviate our feelings.

It is the firm opinion of the student body that no such thing could have happened if adequate police service were given the college. We do not mean to say that it would not have happened if there had been police on the campus for police there were—all enjoying the ball game. What we do mean to say is this: For two years and more, a "cop" has been a rare and wonderful sight on our campus. In this time the "kids" have been getting more and more brazen. At the present time we are allowed to use the campus merely as an act of courtesy by the youngsters of the neighborhood. They have found that they may wander about unchecked and this latest depredation comes as a result of their growing knowledge of the lay of the land.

We understood, when "Jim the Copper" took his departure, that we would enjoy the police service of the city. We do only when there is some game in progress. Why cannot we have the same at all times? As a last resort, it has been suggested that the

student body hire a special policeman, to keep the campus clear of objectionable characters. We think this scheme deserves consideration.

Saturday last could scarcely be called a day of unmixed delight, but still we have reason to be pretty well satisfied with ourselves. We not only defeated Hamilton in baseball for the fourth consecutive time but administered the worst defeat of the four. The team continued its good work, showing the best form yet seen on the home grounds. The batting was a revelation, even to those of us who have watched the team develop.

Nor are we any the less satisfied with the work of the track team. The men fought nobly against odds. It is no disgrace to be beaten by better men.

Now all is preparation for the meet with Rochester. Let us give the team all possible support, for there is a good chance of winning that meet, as our team is much better than last year's.

The last Junior Hop of the year comes next Friday night. The committee has given an excellent series of hops this year, but this promises to be the best of all. The fellows should attend well to make it as successful as the others have been.

The advisory committee on athletics of Trinity College at a meeting held at Hartford Thursday, May 4, discovered that the track meet with Union last year was unfairly won by Trinity because of a man on the Trinity team who was not in college. A representative was at once sent to Schenectady who personally on behalf of the committee apologized for the affair, stating that it had just been brought to their notice. He further stated that the banner would be returned to Union and the meet stricken entirely from the Trinity records.

We recognize and appreciate the honor-

able course taken by the advisory committee.

### Michigan's "County Fair."

On May 5 and 6 the students of Michigan University held their triennial County Fair and it proved to be an immense success, over \$4,000 being cleared for the benefit of the University Union. This Union is composed of students, alumni, members of the several faculties and the board of regents and has for its object the advancement of the interests of the entire university body. The proceeds of the fair are to be devoted to the building fund of a large club house. The fair was held in the large double gymnasium and consisted of everything from a pawn shop to a beauty show. There were continuous vaudeville, side shows, an Indian village, a German garden and an animal show. Along the midway were gaming devices of all kinds, fortune tellers, ballets and mysteries of every conceivable nature. Before the show began there was a long parade through the streets of Ann Arbor, which afforded interest and amusement to the crowds that had assembled from the nearby cities. The show was arranged and carried out by students of the university alone and never before was such enthusiasm shown in any other undertaking. The officers and members of the Michigan Union surely have just cause for being satisfied with their efforts, for they succeeded in arousing the keenest interest and good fellowship among the students of every department of that great university.

### BETWEEN LECTURES.

Hoffy—"Will you read the question, Mr. Hagar?"

P. J., waking suddenly, (explosively)—"No, sir!"

\* \* \* \*

Stoll, (after lengthy explanation of certain peculiarities of sheep)—"But that is a stock example."

Don't forget the Junior Hop next week. It's the last.

# HAMILTON DEFEATED.

## Union Wins Fourth Victory.

A game which savored more of the practice variety than of the intercollegiate was played last Saturday on the campus against Hamilton and resulted in a victory for Union by a score of 12-3.

Hamilton's main trouble lay in the miserable work of her outfield and pitching staff, eight runs being scored in the first inning.

Union played a consistent though not brilliant game and was only charged with two errors. Hildreth pitched a very good game, striking out five men. Sherman, Hamilton's much heralded freshman pitcher, was batted out of the box before the end of the first inning and his successor, Havens, fared but little better.

The game showed Union's great improvement in batting. Some excellent bunting and sacrifice hitting was also seen. The runs came rather in bunches. Hamilton scored twice in the third and once more in the sixth, while Union scored eight in the first, three in the third and one in the seventh.

For Hamilton, Haggerson lead at the bat, getting three of the hits made by his side. Havens fielded his position well taking six out of seven chances. All of Union's men batted well. Diver held down third well, accepting six chances without an error, while Davis took a like number at short. Mulrooney, while he suffered an unfortunate accident made the star catch of the game. While trying for the ball he collided with Hagar. He fell hard but hung on to the ball. It was later found that a piece had been chipped from his shoulder bone. The score:

### Score by Innings.

Union .....	8	0	3	0	0	0	1	0	x—12
Hamilton .....	0	0	2	0	0	1	0	0	0—3

Earned runs—Union, 4; Hamilton, 1. 2 base hits—Hildreth, Haggerson, Hagar. 3 base hit—Hildreth. Passed balls—Vogt, 1; White, 1. Bases on balls—Off Hildreth, 1; off Sherman, 1; off Havens, 5. Hit by pitched ball—By Hildreth, 1. Struck out—By Hildreth, 5; by Havens, 2. Sacrifice hits—Hildreth, Rider, Richards. Double plays—Ferris to Le Munyan; White to Bramley. Umpire—Everett T. Grout.

## ANOTHER VICTORY. Rochester Added to the List.

Wednesday afternoon we defeated Rochester by one run after a closely and loosely played contest. Rochester found Hildreth at once and secured several good hits before we made connections with Hart at all. Taggart made a three bagger in the first and scored on Sullivan's single. We failed to score until the third but then three runs came in on Richard's home run. The eighth was our lucky inning and won the game for us. Rochester did some heavy hitting and had a fast infield which gave their battery excellent support until the sixth when it weakened noticeably.

Our boys were slower but played a more careful game as the error column will show. Taggart's hit in the first, Richard's home run and Harvey's scoring on Colburn's bunt by means of a "squeeze play" were the features of the game. Hildreth, though hit hard, pitched a consistent game and had seven strike outs to his credit. All our boys seemed to be in good trim and showed plainly the effects of the past few weeks careful training and offered quite a contrast to the Rochester men before the game was finished. Our batting in general too was much of an improvement over the other games on the campus this season.

No better example of the use of combined yelling can be had than that seen in this game. Our concerted work in this direction certainly was no small factor, as the Rochester infield men practically went to pieces in the last few innings, while our fellows played better all the time. We should bear this in mind for the other home games. The score:

## UNION.

### Middlebury Today.

A good game is promised today when Middlebury comes to meet Union on the campus. Middlebury has made a good record thus far while Union has experienced only two defeats and that was before the team was in proper playing condition.

The team will try particularly hard to wipe out the defeat sustained at the hands of the Vermonters last spring, although that was due more to our own misfortune than to their strength. Mahar was injured during the game and the team was in a demoralized condition. We should win rather easily after the showing made in last Saturday's game. The line-up:

Hildreth, short stop.

Rider, left field.

Hagar, center field.

Diver, third base.

Harvey, second base.

Richards, right field.

Colburn, left field.

Vogt, catcher.

Davis, pitcher.

### FRESHMEN WIN TOO.

#### 1908 Defeats Amsterdam High.

On Friday, May 5th, the Freshman team played its first game of the season at Amsterdam. Though the game, which lasted for five innings, was played in the rain, the team showed up exceptionally well. Curtin pitched a strong game, striking out seven men and allowing but one hit. Considering the condition of the grounds and weather, the work of the infield and outfield was good as the few tries which they received were handled easily and quickly. The batting was somewhat behind the other work of the team, but the few hits which were made were well bunched, thus allowing the freshmen to make three tallies.

Score by Innings:

1908 .....	1	0	0	2	0—3
Amsterdam H. S. ....	0	0	0	0	0—0

Don't forget the Junior Hop next week. It's the last.

### TENNIS WITH HAMILTON.

#### A New Enterprise in Athletics.

On May 24th Union will meet Hamilton for the first time in a tennis match. Last year, it will be remembered, a match was arranged to be played in Clinton, but weather prevented and the match was called off. This year Hamilton will bring a team of four men to Schenectady and everything possible will be done to make the event interesting. Six men only have entered their names for the trials which should be completed before the end of this week. These men are E. King, '05, W. L. Brooks '06, M. R. Vincent '08, F. S. Raymond '08, P. S. Wheeler of the Law, and Hull of the Medic.

### Glee Club Plans.

The best part of the season for the Musical Clubs is to come. The Spring trips are always the pleasantest from every point of view. Manager Stevens has been certain of places for concerts for several weeks, but owing to difficulty in

arranging dates, no definite announcements have been made as yet. It is very probable that the Poughkeepsie concert will take place in about two weeks, so it is certainly necessary for the clubs to get down to regular rehearsing again. The concert at Whitehall the last week in May, is a certainty. The rehearsal of the Instrumental Club on Monday evening was the best yet and the new music was tackled with a vim. The quartette has been rehearsing and is in good condition. New music for the Glee Club will be on hand right away.

### Rules of One Hundred Years Ago.

(Recently, while in the library, I ran across a book of rules which were in force here in the early years of last century. I have made a few extracts for the purpose of printing them, because, to the best of my recollection, they have not seen the light of day for several years at least. Some are curious but all are pertinent to present situations.—Ed.)

All the Students shall regularly assemble for divine worship, in the public hall, every morning at six o'clock in the summer, and at half an hour past eight in the winter.

\* \* \* \*

No Student shall be absent from his quarters in the evening after seven o'clock in the winter, and ten o'clock in the summer.

\* \* \* \*

Every Student shall salute and address the President, Professor, and Tutors with due respect, and while within the College walls, remain uncovered in their presence. They shall also treat all men with decency and good manners, and appear clean and neat whenever they attend upon business at College, upon penalty of admonition, as the case may require.

\* \* \* \*

Section 1. If any Student shall wilfully do any injury to the buildings belonging to the College, or to property of any member of the College, he shall be charged in his quarterly bill, with all expenses incurred by repairing such injury and shall be moreover admonished at the discretion of the Faculty.

## NOTICE

### TO COLLEGE STUDENTS

No doubt you are one of many who has thought of what would be needed, to refresh the wardrobe this spring and summer season. Our line is complete, in the newest colorings and designs, for custom made and ready to wear clothing. Special attention in fit, workmanship, style, trimmings, etc., will be given your order, you will be absolutely certain in getting exactly what you want, we guarantee you satisfaction or money refunded.

P. S. Come see what spring has sprung.

\* \* \* \*

Section 2. If damage shall be done to any apartment, or its property in the buildings belonging to the College, by persons unknown, the expense of repairing the same shall be charged equally to all the Students, unless they shall discover the person who committed the same, in which case, it shall be charged to him only.

\* \* \* \*

The price of tuition, for all the students who attend either of the classes in College, shall be Sixteen Dollars per annum.

\* \* \* \*

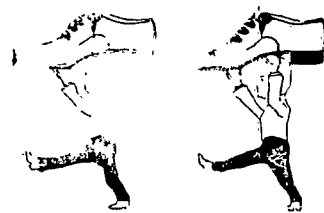

The officers of the College and the Students, shall wear some distinguishing dress, during their attendance upon divine service, examinations, and other public exercises of the College.

\* \* \* \*

No Student shall be allowed to make any noise or engage in any riot, or be guilty of any other indecency within College, or behave lightly or negligently in the public buildings of College, upon pain of admonition, as the case may require.

## CORNELL UNIVERSITY MEDICAL COLLEGE, New York City

THE course covering four years begins during the first week in October and continues until June. A preliminary training in natural science is of great advantage. All the classes are divided in small sections for recitation, laboratory and clinical bedside instruction. Students are admitted to advance standing after passing the requisite examinations. The successful completion of the first year in any College or University recognized by the Regents of the State of New York as maintaining a satisfactory standard is sufficient to satisfy the requirements for admission which have lately been raised. The annual announcement giving full particulars will be mailed on application.
