## THE PRESENT SITUATION IN RUSSIA.

### A Russian Political Exile Speaks in Chapel.

Mr. Isador Ladoff, who is publishing a series of articles in "Harper's Monthly" on his exile in Siberia, lectured in chapel last Saturday evening relative to the present situation in Russia. A number of outsiders were present, together with the usual number of college men. At the conclusion of his talk, which was very interesting, Mr. Ladoff answered a number of questions. Asked as to the reason for his exile, he said that while writing for foreign papers shortly after graduating from college, he was suddenly arrested and deported to Siberia without even a trial. It was there that, with the aid of standard books, he acquired his knowledge of the English language, in the use of which he is perfect.

Mr. Ladoff began his talk by summing up the early situation in Russia, before the Crimean war. "Tyranny" is the watchword of the government, the press is muzzled, science trodden down and free speech forbidden. There are neither juries nor trials. A suspect is banished without compunction. The peasantry are crushed; owing to the fact that two-fifths of their gross income goes to the government in taxes and much more to the provincial system they are underfed and deteriorating physically. The result is pauperism, illiteracy and semi-barbarism among nine-tenths of the total population of Russia.

Mr. Ladoff next stated that the popular opinion concerning the Czar as a mighty power is erroneous. He is a mere figure-head, and the real ruling class is the bureaucracy. It is for the benefit of these bureaucrats that the government is run. The peasants, Poles, Fins, Jews, etc., comprising the major part of the population had no desire for war on the Japanese, the policy of expansion being dictated entirely by the bureaucracy. The

absorption of the Asiatic provinces and the aspiration to acquire Manchuria was mainly to provide more "graft" offices for relatives and friends of the bureaucrats. So corrupt is this bureaucracy that most of the money provided for the accessories of war, for the soldiers' pay and maintenance goes into the private purses of the officials. Mr. Ladoff cited as a single instance of corrupt political "graft," the case of the late Grand Duke Sergius, who, after collecting twenty-five million dollars to build a memorial church to his father, failed to turn over a cent when everything was ready to begin construction.

However, the most educated and enlightened people in Russia are opposed to the bureaucrats, and are in the present crisis the best friends of the Japanese. They know that every defeat in the Far East is a blow at tyranny and for liberty at home. The educated proletarians are hoping for the revolutionary movement which will oust the bureaucrats forever. The rapid spread of Socialism even among the poorest classes, the criminal tyranny of the government in massacring innocent persons on the streets of St. Petersburg, the excommunication of the revered Father Gapon and numberless events of like character, are all hastening the time when Russian peasants shall become an educated and an enlightened people.

In conclusion Mr. Ladoff said he felt that the hearts of the American people were in sympathy with the down-trodden Russian working class, and that there would be no greater rejoicing anywhere than in America when the bureaucrats were taken from Russian politics, and the real Russian people ruled a real Russia.

## MEDIC COMMENCEMENT.

## Fifty-two Receive Degree at Albany.

The annual commencement of the Albany Medical College was held Tuesday afternoon at the Odd Fellows' Hall, Albany. In the presence of a large number of relatives and friends, fifty-two members of the class of 1905 received the degree of M. D.

The ceremonies started at 3 o'clock when the graduates, wearing the academic cap and gown, entered the hall. The essayist of the class was Charles William Hacker, a resident of Albany, who read a carefully prepared paper on "Lock-jaw." Later Dr. A. V. V. Raymond, as chancellor of the university, conferred the degrees.

The Hon. Judson L. Landon of this city delivered the address to the graduating class. In opening he said that, while he could not agree entirely with Dr. Osler's theories, he must admit that it is the men under 40 in whose brains is inculcated the epoch-making work of the world. He went on to show what a high calling the graduates had taken upon themselves and the great opportunities for good afforded to them. In closing he exhorted them to make universal good their object and not money alone.

In the evening the annual banquet of the Alumni Association was held at the Ten Eyck. Good cheer and witty speeches abounded and the evening was passed most enjoyably. Dr. John H. Cotter was toastmaster. The following responded: Judson S. Landon, L.L.D. and Drs. Samuel B. Ward, Joseph A. Lawson, Howard J. Rogers, and George Walrath.

'38.—Livingston Guildery Parker, who was born at Watertown, N. Y., Feb. 7, 1815, died at Livingston, Iowa, March, 1905. His father was Jeremiah Parker. Mr. Parker was prepared for college at the Belleville Academy. After graduation from college he taught for several years, studied law in the office of his uncle, Orson Parker, and finally went West. He was employed for some time on the Miami Canal in Ohio and while there married Miss Nancy J. Barney. From here he went to northern Indiana and engaged in dam building. He next conducted a book store at Urbana, Ohio, and taught in the public schools. In 1854 he went to Iowa in the township of Franklin, where in time the town of Livingston, which grew up, was named after him. He became an editor on the "Appanoose Republican," before the War. He enlisted with his oldest son, in Company B of the Sixth Kansas and remained with it until 1863. He was made captain of the company. Soon after the war he was ordained a minister and supplied several churches in his section of the State. He is survived by two sons, Benjamin B. and Albert L. His wife died in 1894. Four other sons, Edward L., John, Charles F., and Will are dead.

**Y. M. C. A. Notes.**

At Sunday's Vesper service Dr. Towne, who was to speak on "Physical Development a Christian Duty," was unable to be present and Dr. Ellery took his place, speaking on the subject of "Strength for Men."

Dr. Ellery gathered the thought of his talk around the words "luck" and "pluck." He read as a text the first chapter of Joshua, finishing it with the remark that he wished every college man could have that chapter on strength at hand to read once a day. In part Dr. Ellery said:

There is no such thing as luck. That is, there is no such thing as a cause without an effect. Any man who asks for sympathy saying his luck is against him is but suffering the effect of some former mistake in his life.

Luck and pluck. Take some of the thoughts suggested by the first letters of these words: They often are the difference in the characters of the men who speak the words.

P suggests patience. The kind that brings success. Some of Nature's laws work very slowly. The effect of obedience to her laws is often as long in coming as the effect of disobedience. Patience is first; the willingness to study Nature's law, second;

the willingness to obey, third. If, after learning, we do not obey our study is in vain.

P suggests perseverance. This age is one marked by rapidity in all things and this is often unfortunate. We are apt to forget that geniuses are few. We leap at big things forgetting that the bulk of the world's work is done by the plodders.

Pride is a word suggested. Not vanity which is an emptiness, but self-respect which is a fullness. The pride which keeps a man from an environment where no proud man is found.

Purity is the last word. We often exhibit our pride before others. Purity we exhibit when alone with ourselves. Men should be pure for they set the standard of purity for woman, for their mothers, their sisters and those they love. A man may possess all his passions and yet be pure.

All these things may be brought into our lives without losing anything of good already in them. They are the things that mark the difference between the man of luck and the man of pluck.

**SUNDAY VESPERS: "A Triumph of Conscience." Suggestions from Victor Hugo's "Les Miserables"—By Dr. Ellery.**

**TUESDAY EVENING: Self Mastery.—Nutt, '06.**

Because of the baseball game the cabinet meeting was held Wednesday evening. Reports from the chairmen of the committees showed much progress and, by the end of May, all the preparatory work for the coming year will be completed. The reading room has been enlarged by the addition of "Munsey" and "Life" as the aim is to make this feature of Silliman Hall popular. Other magazines are to follow.

Northfield as a place to spend part of a vacation was the subject of the Tuesday night meeting. Dr. Ellery gave some interesting facts and this year Union should be well represented. The association will help pay the expenses of those attending where needed.

Two hours' university credit is given at Chicago University for services in the orchestra.

## New Library Lights.

It is only a question of a short time before the library will be equipped with a system of desk lights, similar to those now in use in the Schenectady Public Library. The standards for the lights are now being placed on the tables, each standard bearing two arms. The small tables will have one and the longer tables, two standards, while the large center table will have a four light cluster in the center.

## In the College World.

The smallest university in the world has just commenced its twenty-third year of active work. This is the American Classical University of Athens. The enrollment is six scholars, all of whom are Americans engaged in classical research work. Another notable thing about this student body is that each one holds a fellowship.

One-half of one per cent of the population of the United States is college bred. From this small number, 45 per cent of senators, 36 per cent of congressmen, 56 per cent of vice-presidents, 65 per cent of speakers of the House of Representatives, 83 per cent of supreme court justices and 70 per cent of presidents have been chosen.

The recent fire at Denison University will not seriously affect the work there, as the Science building is to be rebuilt at once. A \$35,000 dormitory is to be erected as well, and \$15,000 will be expended upon a new gymnasium for the women's college. Evidently things are booming in the west.

## GREETING.

Once more the scene shifts and another board finds itself directing the destinies of the "Concordy." It is doubtless as it should be and, indeed, we admit that all things must have an end, but, for all that, we can only look with regret upon the retirement of the old board, heralding as it does, the coming, all too soon, of the end of another college year and with it the departure of 1905.

This is more of a time for a hopeful glimpse into the future than for reminiscences. But it does not seem unfitting to pause but a moment for the latter. It has been our lot to see, in this year's "Concordy" a great improvement over former issues, which (if we may be permitted to boast a little) have been by no means few in number. For this, the college and all its friends give their heartiest thanks to the retiring board.

A pace has been set which we of the new board must follow, whether or not. We will do our best, confidently expecting from the student body the same loyal support which has been accorded this year's paper.

## BASE BALL.

We were not at all over certain of winning that Wesleyan game last Saturday and, accordingly, when the good news did come, it was received with so much the greater joy. It showed what the team is capable of doing. The none too pleasing games before were by no means a criterion of the team's standard. With such playing and especially such clean, timely hitting, there seems no reason for the loss of any other games on the schedule. But the team still shows a dangerous tendency to slump, as was seen in Wednesday's game.

One of the best ways to keep in check this tendency to "go up" is to show the men that we are behind them. Let every man be on those bleachers this afternoon and yell as

if his life depended upon it. We can yell better than we did Wednesday, for we have. We must beat Hamilton; we have beaten them three times in two years and we cannot stop now. Every man not on the team can help this along by getting out and making himself heard.

Through an oversight in last week's issue the name of M. H. Weyrauch was omitted from the list of those who had been appointed on the reportorial staff. But as there are eight places to be filled, there still remains one vacancy.

### TRINITY MEET.

#### Track Team at Hartford Today.

Union's track team left for Hartford yesterday afternoon to compete there in a dual track meet with Trinity today. It is the first meet of the season and it is impossible to state how good our men are. Fully twenty men will compete for Union which is four more than last year. They have all worked faithfully and their chances for winning are about even. It is safe to say that our fellows will do their best to make up for the narrow-margined defeat of last year.

Five men are entered in each event, three of whom are to compete. Union's list of entries is as follows:

100 yards dash—Hafley, Vincent, Waldron, Moore, Von Dannenberg.  
220 yards dash—Vincent, Moore, Hafley, Von Dannenberg, Waldron.

440 yards dash—Waldron, Shutler, Hafley, Moore, Von Dannenberg.

880 yards run—Parsons, Reed, Raymond '05, Raymond '08, Moore.

1 mile run—Reed, Flowers, Colburn, Cantwell, Wright.

2 mile run—Flowers, Langley, Reed, Wright, Holleran.

Broad jump—Dwight, Vincent, Waldron, Keigher, O'Keefe.

High jump—Bennett, Larson, Waldron, Dwight, Waite.

Shot put—Closson, Becker, Larson, O'Donnell, Von Dannenberg.

Hammer throw—Closson, Knight, Larson, Becker, Patton.

Pole vault—Bacon, Shutler, Raymond, Keigher.

120 hurdles—Langley, Raymond, McClelland.

220 hurdles—White, McClelland, Waite, Langley, Raymond.

### UNION WINS.

#### Yankee Ball Tossers Easy for the Garnet.

On Saturday last Union easily defeated Wesleyan at Middletown by the score of 8-4. The victory was rather unexpected but the team braced up wonderfully after the week's work. The victory was due in no small measure to Hildreth's pitching, off of which Wesleyan got but five hits.

The story of the game follows: The first inning resulted in goose eggs for each team as did the second also for Union but Wesleyan got one man home making the score at the end of the second inning 1-0. Union scored 4 times in the third; Vogt, first to bat, struck out but Hildreth singled, Rider was passed and Hagar also got a gift which filled the bases. Diver drove out a long single on which Hildreth and Rider scored. Harvey hit an easy grounder to Munroe who threw wild and let Diver and Hagar score. Wesleyan scored twice. The fourth inning was practically a repetition of the third, Hildreth, Rider and Hagar scoring. The opposing team was shut out. Three more innings left the score the same, 7-3, but in the eighth on Hildreth's single, Rider's

sacrifice, and Diver's hot one for a base, Union brought in one more run. Wesleyan tallied once more in the ninth. Final score 8-4.

Wesleyan could not hit Hildreth to advantage and twelve men were retired on easy flies. Vogt did his share by putting out three in the fourth on foul flies. Harvey did well at second, making a sensational stop with two men on bases. Munroe pitched well, striking out eleven men. The hitting of Rider and Diver was the feature of the game. The score:

## COLLEGE DEFEATS LAW.

## Davis Pitches Fine Game.

The first game ever played between the college department and the law department of the university took place Wednesday on the campus. It resulted in a score of 7-6 in favor of the college.

The game opened up very loosely, each side getting two runs in the first inning; the second resulting in a total of 4-3 in favor of the college. Again in the third the college gained three; but was shut out for the rest of the game.

The features of the game were the excellent pitching by Davis, who struck out thirteen men, in two innings retiring the side on strike-outs;

## The Union University Quarterly.

The last number of the first volume of the Union University Quarterly came out this week, containing a number of very interesting and instructive articles. The leading article is by William J. Keep, '65 and deals with the work of Dr. Nott as an inventor. That Dr. Nott was very prominent in this line is shown by the records of the United States Patent Office.

"Aesculapius, the Miracle-Worker," by Prof. Bennett is a treat for all lovers of the classics and highly interesting reading for all. The following is a cure which the author ranks high for its miraculousness and higher still for its benevolence. "Heraeus of Mytilene—He had no hair on the top of his head. On his chin he had enough and to spare. He was ashamed of himself for its friends poked fun at him. He slept. The God rubbed a lotion on his head. That brought hair."

"Is the Civil Service an Attractive Occupation?" is a question well discussed and answered by Horatio M. Pollock, '95, Senior Examiner of the New York State Civil Service Commission.

The treatise on "Some Tendencies in Modern Medical Education" should be of practical value to many as Dr. Craig, '80 is an authority in his line. The editor-in-chief, Dr. March, contributed in "The Character of Wordsworth, a careful and scholarly essay. The writer says: "It is he (Wordsworth) who first told us of, 'The vision and the faculty divine,' 'The creative soul,' 'Plain thinking and high living' 'The thoughts that do often lie too deep for tears,' 'The still sad music of humanity,' And 'The creature not too bright or good,

For human nature's daily food.'

There are the usual department articles and an excellent lot of alumni notes.

The 1908 baseball team went to Amsterdam yesterday to play the High School team of that place. They attended one of the High School fraternity dances in the evening.

The instruction committee of the Board of Trustees held a meeting in New York last night.
