FOOTBALL.

Union Badly Defeated.

On Saturday, November the twentieth, Union was badly defeated by New York University at New York, the final score being forty-seven to nothing. In this, the last football game of the year, the Garnet team made a poor showing, doubtless due to the fact that many of the regular players were unable, because of injuries, to take part in the game. The greatness of the score may also be accounted for, when one realizes that the New York University team has not sustained a single defeat this season.

One of Union's greatest weaknesses in this game was that both Brown and Stewart, who have been depended upon to do the kicking, did not play. Consequently the kick offs were made very poorly. Brown was missed on the line also.

Micks played a star game at fullback, both on the defensive and offensive. Following a kick-off by New York University, Micks carried the ball forty yards before he was tackled.

On account of the time which has intervened since the game was played, no full account is given. The first half ended with the score twenty-three to nothing; while, in the second half, N. Y. U. rolled up twenty-four points.

The teams lined up as follows:

Union	N. Y. U.
Irish, Dunbar	Wheeler (Capt.)
	Left end.
Trapp	Davis, Brennan
	Left tackle.
Sellnow	Henneberger, Dressler
	Left guard.
Vedder	Cooney, Kapff
	Center.
O'Connell	Mackay
	Right guard.

Atkin	Veseley
	Right tackle.
Miller	Crawford, Eliffe
	Right end.
Shutler, Webb	Nixon
	Quarterback.
Reilly, Dewey	Gorsch, Norlin
	Left halfback.
Hequembourg (Capt.)	Moore
	Right halfback.
Micks	Yule, Kennedy
	Referee—Kinzer, of Columbia. Umpire—Saunders, of Columbia. Field judge—Knolt, of Hamilton. Time of halves—30 minutes.

THE NEW GYM.

We have not heard much recently about the progress of the Gym movement but the men in charge of it are working all of the time. They have recently gotten out the following three articles which are to be sent around in order to keep the alumni constantly in touch with the plans.

In the trophy room of Union's gymnasium there will be a large fireplace. This will be named after the class which, in the final reckoning, shows the highest percentage of loyalty. This percentage will be computed as follows: The classes will first be listed in the order of total subscriptions; second, in the order of percentage of responses; third, in the order of average subscriptions per subscriber; and fourth, in the order of the average subscription per living member. The number of the place occupied by each class in each of these lists will be added together. The smallest total will indicate the highest percentage of loyalty. The name of the winning class will be carved on the fireplace.

If you would have your class respond most loyally to this call from the old College send in your check or subscription TO-DAY, to Prof. Howard Opdyke, Union College, Schenectady, N. Y. Make checks payable to The Trustees of Union College.

One-half of the hundred thousand dollars necessary to the success of Union's New Gymnasium project must be subscribed by February 1, 1910.

At each time a detailed report will be made of the subscriptions by CLASSES. This will include the total subscriptions of each class, the percentage of responses, the average subscription per subscriber, and the average subscription per living member.

Have you sent in YOUR subscriptions? If not, do so at once so that your class may make the best possible showing.

Checks and subscriptions may be mailed to Professor Howard Opdyke, Union College, Schenectady, N. Y. Make checks payable to The Trustees of Union College.

DO IT NOW—TO-DAY.

Upon the walls of the trophy room of Union's

New Gymnasium, in addition to the names of the purchasers of bricks and their classes, there will be placed a bronze tablet. This will contain the names of those Alumni or friends who provide the means for several of the most important features of the building. The swimming pool can be named for ten thousand dollars; the general equipment of the building for a like amount; the furnishing of the ladies' parlor, etc., also provides splendid opportunity for special subscriptions; as does the running track; memorial entrance doors would provide similar opportunity and would add much to the attractive appearance of the building. If these things do not appeal to you there are other things about the new gym that will. Send on your subscription and state your wishes, but above all, send on your subscription.

Make checks payable to Trustees of Union College and mail both checks and subscriptions to Howard Opdyke, Union College, Schenectady, N. Y.

HOCKEY.

During the winter of 1906-07 and 1907-08 there was a college hockey team here at Union which played several games although unrecognized by the Athletic Association. This past week an effort was started to get hockey recognized as a regular college sport. There is undoubtedly a large amount of good material in college at present and there is no reason why this talent should not be organized into a first-class team, which will do credit to Union. At a meeting of those interested in the sport after college meeting on Monday last, T. D. Walser, '10, was elected manager and he is now under negotiations to obtain a regular rink for practice. He is also making out a schedule and now it rests with the fellows. If enough interest is manifested, the movement will prove a success and it is therefore up to every man in college with any hockey ability at all to turn out for the practices. Announcement will be made when and where they will be held as soon as possible.

There are fifteen companies in the university regiment at Illinois.

CONVENTION OF COLLEGE AND PREPARATORY SCHOOLS OF MIDDLE STATES AND MARYLAND.

President Richmond Present.

"Prexy" Richmond was present as the representative of Union College at the twenty-third annual convention of the Association of Colleges and Preparatory Schools of the Middle States and Maryland, which was held on Friday and Saturday of last week, under the auspices of the Universities, Colleges and Schools of Washington, D. C.

On Friday morning the subject, "The Utilization of the College Fraternity in Student Life," was considered, the main address being delivered by Mr. Clarence F. Birdseye of New York city, the author of "The Reorganization of Our Colleges." Mr. Birdseye is also the editor of a magazine called "The American College," which has been published but a few months.

President Richmond also entered into the discussion on this topic and said that although he himself was a non-fraternity man, coming as he did from Princeton where fraternities are unknown, he spoke as the president of the college in which many of the older fraternities were organized. He then went on to tell about the fraternities which were originally founded at Union College—Kappa Alpha, in 1825; Sigma Phi, in 1827; Delta Phi, in 1827; Psi Upsilon, in 1833, and the Chi Psi, in 1841.

He said that from his short observation of the working of fraternities at Union, he felt that they could be used to supply the need of home life in college as well, if not better than any other agency we have at present. He also expressed his opinion that the evils existing in the fraternities are capable of correction.

At this conference the question of entrance requirements in English was also taken up. The general feeling of those present was that greater freedom should be allowed among the students as to the choice of books to be read for entrance English.

THE CHRISTIAN ASSOCIATION.

Dr. Brown of Union Seminary to Speak.

At the vesper service next Sunday afternoon Dr. William Adams Brown of New York city will speak on the subject, "The College Man in the Ministry." Mr. Brown is well qualified to speak on a subject of this sort owing to his wide experience. For over ten years he has acted as Roosevelt professor of systematic theology in Union Seminary. He has had considerable experience in literary work and has written several works on religious subjects.

The Association hopes that there will be a full attendance at this meeting, since Dr. Brown has come up from New York for the sole purpose of being at the meeting.

The weekly Bible classes met as usual in Silliman Hall on Tuesday evening. The attendance at these classes is steadily increasing, the discussions with Dr. Hoffman being especially well-supported among the seniors. "Prexy" Richmond has charge of the freshmen, and a course of unusual interest is being given. The juniors and sophomores have been united into one class under the guidance of Dr. Adams. Owing to Dr. Adams having other engagements this group will not meet again until next Friday.

The football season of 1909 has closed and though our team did not win many victories during the season we do not think that we ought to feel disappointed over the results. At the beginning of the season the prospects were not very bright for a good team because of the fact that so few of the positions would be filled by old men but would be open to new material. As a result of this very few of the men who played did so as regulars but were being constantly changed about. Another thing that went against the team was the fact that some of the best men were kept out of the game because of injuries and the effect of this was especially felt in the last game. But many of the new men showed up well and promise to make exceptionally good material another year. We can be certain that the team for next year will be far stronger than this year for, while several good men will be lost by graduation, their places will be filled by very good men and with the proper coaching the season will be far more successful than this one.

Within the past few months there has seemed to be an epidemic of new presidents among the colleges for during that time several have been inaugurated. Some of the men who have been chosen as heads of the several institutions were men who were not much heard of in public life and others were men who had previously been in the public eye for some time. But they were all chosen after due consideration on the part of the college trustees and they have all received the hearty support of the students to whom they went. They all seem to stand for an advance in education along broad lines and it is hoped that they may fill the positions which they have received and which demand so much of them as men.

THE NEW COLLEGE PRESIDENTS.

The year nineteen hundred and nine has been an important one for education in the United States, for during this time nine universities besides several smaller colleges have inaugurated new presidents. This signifies that a new generation is coming into the control of education. A generation whose ideals of a college president are far different than those of a generation ago.

The head of the college to-day must be not only a good scholar and an intellectual leader, but he must also be the possessor of executive ability and of qualities that make him a leader in the world at large. For proof of this statement we need but investigate the character of some of the persons who have recently been called as college presidents.

At Harvard Dr. Eliot has been succeeded by President L. Abbott Lowell. Dr. Lowell, who was born in Boston is a descendant of a family who have long been noted for their interest in social, business, religious, and intellectual activities. His whole life has been devoted to the practice of law and to educational work, and he is well fitted to shoulder the responsibilities connected with such an institution.

The following words recently spoken about him, give a clear conception of his character, "A citizen of the modern world, in search of knowledge, but more in search of wisdom; ready to follow the light but not to plan without light; vigorous, observant, tolerant, fearless."

President Angell of Michigan University, who at the age of eighty has now retired after forty-three years of leadership in college work, has completed a career of untold usefulness in the State of Michigan. Dr. Angell's successor has not yet been chosen, but whoever is called to fill the chair will have the opportunity of making Michigan the greatest of all the State universities.

Two splendid examples of this new style of president may be found in Dr. Ernest Fox Nichols, the new head of Dartmouth, and Richard C. Maclaurin of the Massachusetts Institute of Technology. President Nichols, while not a clergyman or even an A. B. college graduate, has become by his

scientific achievements and his personality, a splendid leader for young men; a person who is looked up to with respect and administration.

Dr. Maclaurin, who was recently called to the Massachusetts "Tech," is a man of exceptional ability, although not yet forty years of age. He is not only a thorough scholar, but a shrewd business man, and he is already facing such problems as the selection of a new site for the institution and the need of an adequate endowment.

In the University of Minnesota no one has as yet been found to carry on the work recently laid down by President Northrup, who has retired after thirty years of usefulness in the institution.

Heartily in sympathy with any new educational movement is Dr. M. L. Burton, a young clergyman, who has been chosen as president of Smith College, but who will not assume his duties this year, as he intends first spending a year in the study of educational work in Europe and America.

At Colgate Dr. Bryan has been installed as the new head of the university, while still more recently Wesleyan has inaugurated Dr. William Arnold Shanklin, a Methodist clergyman, born in Missouri, as the successor of Dr. Bradford P. Raymond.

Nothing need be said about our own president, Dr. Richmond. The stand which he takes on every movement tending to the improvement of educational methods and the uplift of humanity is well known.

Taken separately, perhaps no one of these men shows a marked advance toward modern and more improved educational methods. But, taken together, they are destined to exert an influence whose power and importance we can scarcely realize.

MRS. ELLERY RETURNED.

Mrs. Ellery has returned to the "hill" after an absence of several weeks. She was called to her home in Newport, Maine, by the illness of her mother, who died a little over a week ago. The students wish to extend their sympathy to Mrs. Ellery in her bereavement.

DEBATING.

Triangular Debate, March 4, 1910.

This year we are to be in a triangular 'varsity debate with Colgate and Hamilton. Representatives of the three colleges have drawn up several articles of agreement which are to govern the conditions and methods of the debate. Following are the articles:

Articles of Agreement.

Representatives of Hamilton College, of the Colgate Debating Council and of the Debating Council of Union College, do hereby agree to form a triangular Intercollegiate Debating League, to hold a debate on March 4, 1910, under the following conditions:

I. The Executive Committee of the League shall consist of three members, one representing each college in the League, and shall have charge of all matters pertaining to the league, subject to the provision herein contained. The single officer of the League shall be called an Executive Officer, chosen from its membership.

II. The League shall hold three debates under the following plan: All debates shall be held on the same evening and upon the same question, each college being represented by a team maintaining the affirmative and a team maintaining the negative. At each debate the affirmative shall be upheld by the visiting team. The schedule of the debates shall be as follows:

Affirmative. Negative.

At Hamilton Union..... Colgate.

At Clinton Colgate..... Hamilton.

At Schenectady Hamilton... Union.

III. The question for debate shall be selected as follows: On or before November 15, each college shall submit to the Executive Officer of the League two formulated questions for debate. The Executive Officer shall immediately notify all members of the Executive Committee of all six questions. On or before December 15 each college shall submit to the Executive Officer its order of preference or choice as to three of the

questions suggested. In determining the question chosen, the first choice shall be counted three points, the second two points, the third one point. The question thus receiving the greatest number of points shall be chosen. In the event of a deadlock, the colleges shall take another ballot, to decide between the two questions highest on the list. The Executive Officer shall in all cases promptly notify the colleges of the results of the balloting.

IV. The college under whose auspices each debate is held shall have charge of all local arrangements, and shall assume all financial obligations thereof, excepting the traveling expenses of the visiting delegation.

V. Each college shall select for each team three representatives and an alternate from its student body, but no one shall be chosen who is not a bona fide undergraduate student and a candidate for a degree.

VI. Each debater shall be allowed two speeches, one of nine (9) minutes' duration, the other six (6)—except the closing speakers for each side, who shall be allowed nine (9) minutes in the closing speech of the debate. The order of the speakers shall be as follows: A1, N1, A2, N2, A3, N3,—rebuttal, N1, A1, N2, A2, N3, A3. There shall be an intermission of five minutes between the direct and the rebuttal speeches. No notes, or authorities, will be allowed on the platform except on the rebuttal.

VII. Each contest shall be judged and decided by three judges, who shall be disinterested persons, not holding a degree from either competing college or connected therewith in any relation, and chosen in the following manner: The disinterested college shall select the judges for each debate, viz., Union shall select the judges for the Colgate-Hamilton debate; Colgate for the Union-Hamilton, and Hamilton for the Colgate-Union. These appointments shall be forwarded to the member of the Executive Committee in each college, and be held confidentially by him until the time of the debate.

VIII. The award shall be made on the merits of the argument as presented in the debate, and

not upon the merits of the question. The decision shall be announced by one of the judges.

SUBJECTS FOR THE TRIANGULAR DEBATE.

The subjects for the triangular debate have been handed in to the intercollegiate debating council and the subject will be definitely decided upon in a few weeks.

The following subjects were submitted, the first two being from Colgate, the second two from Hamilton, and the last two from Union.

1. An independent voter can do more for pure politics than a party man.
2. A pro rata income tax is the best method of raising public revenue.
3. The U. S. government should establish a system of postal savings banks.
4. The U. S. Senators should be elected by direct vote of the people.
5. A graduated income should be a part of our federal system of taxation.
6. The U. S. government should establish a national bank of issue.

The debating council of each college has been asked to submit to the inter-collegiate council their first, second and third choice of these subjects. The Union council has made the following choice: First, number five; second, number six, and third, number 3. The Allison-Foote debate may be held on the same subject that is chosen for the tri-league.

ALUMNI.

1851.—A book entitled, "New Ideas on Old Subjects," has recently been given to the college by its author, Jacob Wilson, a Union man in the class of 1851. Mr. Wilson has acquired a wide reputation for his literary work, and he is also the author of several other books.

1909.—The college library has just received a book called "Representative College Orations," among which is found the commencement oration of E. W. K. Mould on "Ethics in American Public Life." The book was presented to the library by Mr. Mould, who is now an instructor in Mercersburg Academy.

Borrowing money and betting on horseraces, it has been discovered, form a considerable part of the industry of undergraduates of Cambridge and Oxford Universities. The facts have been disclosed by a case brought under the betting acts, in which Edward Fairfax Studd, Justice of the Peace in County Devon, sued a sporting "tipster" for sending his son, a minor, an invitation to gamble on the Czarowitz race. The defendant was fined \$50 and costs. Mr. Studd told the Magistrate that thousands of circulars were distributed among undergraduates of Oxford and Cambridge, some detailing how wealth could be acquired by gambling, and others offering loans on promissory notes without security. Ordinarily the fast life of the universities is confined to the "bloods," a small minority of the students, but the combination of tips and proffered loans is said to tempt many poorer students to gamble.

The University of Pennsylvania had headquarters at the Seattle Fair last summer, as a gathering place for alumni who visited the Exposition.

Professor Charles W. Brown of the department of geology at Brown University has received the appointment of superintendent of the Rhode Island Natural Resources Survey.

Princeton is to have a vivarium, a building where animal life can be thoroughly studied in all its forms. A botanical garden will be connected with the building, and a greenhouse will be erected for use during the winter months and for the propagation of rare and delicate plants.

Nearly all of the lyrics have been chosen for "The Misfit Man," the play that the Cornell Masque is going to give this year.

Extensive campus improvements are being carried on at the University of California. There are in the course of construction a chemistry building costing \$200,000, three new tennis courts, an ornamental drinking fountain and a memorial gate.

A large natural cave, full of stalactites, stalagmites, and blind fish, has been discovered near the grounds of Indiana University.

A wireless telegraph apparatus is to be installed at the Massachusetts Institute of Technology.

The botanical department of the University of Nebraska has over 200,000 specimens in the herbarium.

Captains of all teams at the University of Iowa will get a star in addition to their letter. The

number of years a man has played will be indicated by bands on the arm of his sweater.

The new swimming pool at Yale, the gift of Andrew Carnegie, has been opened informally for the use of the students.

From figures compiled at the University of Michigan it appears that the total enrollment is 4,627 this year.

In the literary department of Michigan the freshmen are debarred from all college activities.

One hundred and twenty freshmen have matriculated at Colgate this year.

The faculty of Ohio Wesleyan has ordered the Glee Club not to make any engagements away from the University this year.

Chancellor Day of Syracuse has put the University band at that place on a solid foundation by furnishing partial scholarships for all men holding regular positions. Twenty-three men have been chosen for the positions.

THETA SIGMA TO ENTERTAIN AFTER ALBANY CONCERT.

The Theta Sigma Alumni Association of Albany is to give an informal reception to the members of the Glee Club and to all students and friends of Union after the concert in the Unitarian Church on Tuesday, December 7. The purpose of the entertainment is to give the students a

chance of meeting the members of the Theta Sigma Alumni Association and of the active chapter in Albany.

The Albany people are already making arrangements for this affair and the students should support it in every way possible.

INTERCOLLEGIATE.

The sophomores won the preliminary round of the Harvard interclass shoot recently, defeating the freshmen by a score of 152 to 143.

Yale easily defeated the Harvard cross-country squad in their annual dual race recently by 15 to 52.

Dr. Andrew S. Draper, New York State Commissioner of Education, recently spoke to the undergraduates of the University of Iowa.

Pennsylvania is said to have more alien students than any other American University, having an enrollment of 225 foreigners.

The Stanford Rugby football team defeated the Vancouver team of Canada by a score of 55 to 0.

It has been figured that 69 per cent. of those whose names appear in "Who's Who in America" are college graduates. Since less than one per cent. of the total population go to college it would seem that the college graduate's chances of making a name for himself are 69 to 1.

Dr. Frank J. Sexton, coach of the Brown baseball team for several years, has resigned from the position.

Oberlehrer Dr. Kierpert, of the Oberrealschule at Berlin, is in this country for an eighth months' stay for the purpose of making a study of American educational institutions. Dr. Kierpert's presence here was secured by the Carnegie Foundation. At present Dr. Kierpert is teaching in the School of Education of the University of Chicago.

The first intercollegiate all-American soccer team that has ever been selected in this country is announced by G. Dwyer, of Columbia, manager of the Intercollegiate League. The selections were made by Reynold A. Spaeth, of Harvard, formerly president of the League, and they are based on the playing of the men on the various college teams in the season which ended last spring.

PHILIP T. HILL, - College Representative**COLLEGE MEETINGS.**

November 22, 1909.

After Alma Mater had been sung and the freshmen had come down from the gallery, President Cavert opened the meeting by calling on Prof. Opdyke for a few words on the N. Y. U. game. Leon led a long yell for Prof. Opdyke. He responded by saying that however depressing the game might be to a Union man, it was "a very plucky fight." Moreover, the feel that "we're all together," was more inspiring than even a victory would have been.

This was followed by No. 1 for the team, led by Leon. Charest, as head of the winter cap committee, asked the student body which of two styles of caps, one seventy-five cents and the other cheaper, they wished. The vote was practically unanimous in favor of the first style. Charest also spoke concerning the basketball team. He said that all who could play at all should come out after Thanksgiving. If there were only five good men and the rest second-rate, the five could not make a good team. If there were ten first-class men, each man on the team would have to do his best to keep his place.

Zimmer asked all who wished to try out for assistant manager of the basketball team to see him, after which the meeting adjourned.

November 29, 1909.

The meeting was opened by President Cavert after Alma Mater and "Old Union Beside the Mohawk Vale," had been sung. Hutchens led a long yell for Charest. Charest said that it is now time to begin basketball practice, which will be held on Tuesdays and Thursdays, between 4:30 and 5:30 in the Armory. A schedule has been arranged which gives the team two or three fairly easy games at the beginning of the season, but the team should be careful not to make the mistake of thinking them too easy and neglecting

practice.

Walser said that everyone who could play at all should get out for the hockey team.

Potter spoke on the attitude of the Terrace Council toward the Union posters which many of the men have on their suit cases.

Faust spoke of the Glee Club. He said that trips had been arranged to Albany and Ballston Spa, and that everyone who wished to go must attend every rehearsal.

DON'T pay more than half a dollar for a scarf---it isn't necessary. Don't pay less---it isn't safe. Fifty cents ought to buy as Fashionable and Durable a scarf as any man wants on any occasion.

It will buy just that if you ask for and get *LeMar Cravats*, sold everywhere for Half a Dollar. They're the same scarfs for which you have been paying twenty-five to fifty cents more.

Eighteen separate processes enter into the making of *LeMar Cravats*. Thirty-six hands cut, line, sew and shape them. A wonderfully drilled organization creates them in a cravat studio, not a factory. Every part is as carefully made and correctly adjusted as at watch. That's why *LeMar Cravats* look aristocratic, knot gracefully, slip freely and *wear---wear---wear*.
